

I feel K-LOVE is a vital member of my mountain community and appreciate how it serves me as a resident. It would dramatically effect our area if K-LOVE were displaced by a LPFM broadcaster providing other programming, K-LOVE provides good encouraging information to many, many residents in the foothills and surrounding areas. K-LOVE provides the few encouraging and uplifting programming in our area and is constantly promoting good safe family events and guidelance to the local listeners and this provides for a better public environment.
